제 56차 대한악안면성형재건외과학회 종합학술대회 및 정기총회

The 56th Congress of the Korean Association of
Maxillofacial Plastic and Reconstructive Surgeons
November 3(Fri) – 4(Sat), 2017 | Global Convention Plaza, Seoul

A Case Study on the Opening of Oral and Maxillofacial Surgeons Hangjin Kim Wisdom Tooth Dental Clinic, Korea.

It is the age when more than 30,000 dentists are active. After finishing training in the department of oral and maxillofacial surgery, the career paths that can be taken as oral and maxillofacial surgeons are limited. So, it is true that a large number of oral and maxillofacial surgeons are forced to choose opening private dental clinic.

However, the conditions of the opening of the clinic have changed a lot from the past. The dental implant cost has collapsed, and most dentists do dental implant surgery just as they treat cavities.

Therefore, we would like to find out what to consider when opening the dental clinic as a oral and maxillofacial surgeon. I want to find out the type, size, concept appropriate to the situation.

And finally, it is time to think about what you like and what is best for you. Because it is the happiest when you do what you can do best and what you like best.
